1/ These figures are representative of the consumption of fluid milk products in Federal milk order marketing areas and California, and represent approximately 93 percent of total fluid milk sales in the United States. Some of these data have been revised, particularly the "change from previous year" for Low Fat Milk and Fat-Free Milk. 2/ Data for 1999 have been estimated based on the change in population within Federal milk order marketing areas that has occurred as a result of the new consolidated marketing areas that came into effect in January 2000. Percent changes are based on this estimated 1999 data. Percent changes also have been adjusted for calendar composition, including the extra day in February 2000. 3/ Includes flavored whole milk. 4/ Includes flavored fat-reduced milk. 5/ Includes miscellaneous products.
